

YEAR BOOK of

Stark Bro's Nurseries & Orchards Co.

MAILED TO YOU FREE

Just send on a Postal Card: "Send me a copy of Stark Year Book for 1913." When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical easy to understand text book for the guidance of the man who plants trees. Our own experience of many 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously ripened fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, peaches, plums, cherries, apricots, quinces, grapes and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shrubs or shade trees will find this book of inestimable value, totally different from the average nurseryman's publication. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.
